

After a hearty breakfast the riders posed for a picture in the Motel parking lot. The riders split into groups of 30 and 50 mile rides with leaders and various ride speeds to ensure everyone that wanted to ride was able to.

After the riders left the members that chose not to ride left the motel to visit the various sites around Palm Springs. The group is pictured above touring the Cabot's Pueblo Museum.

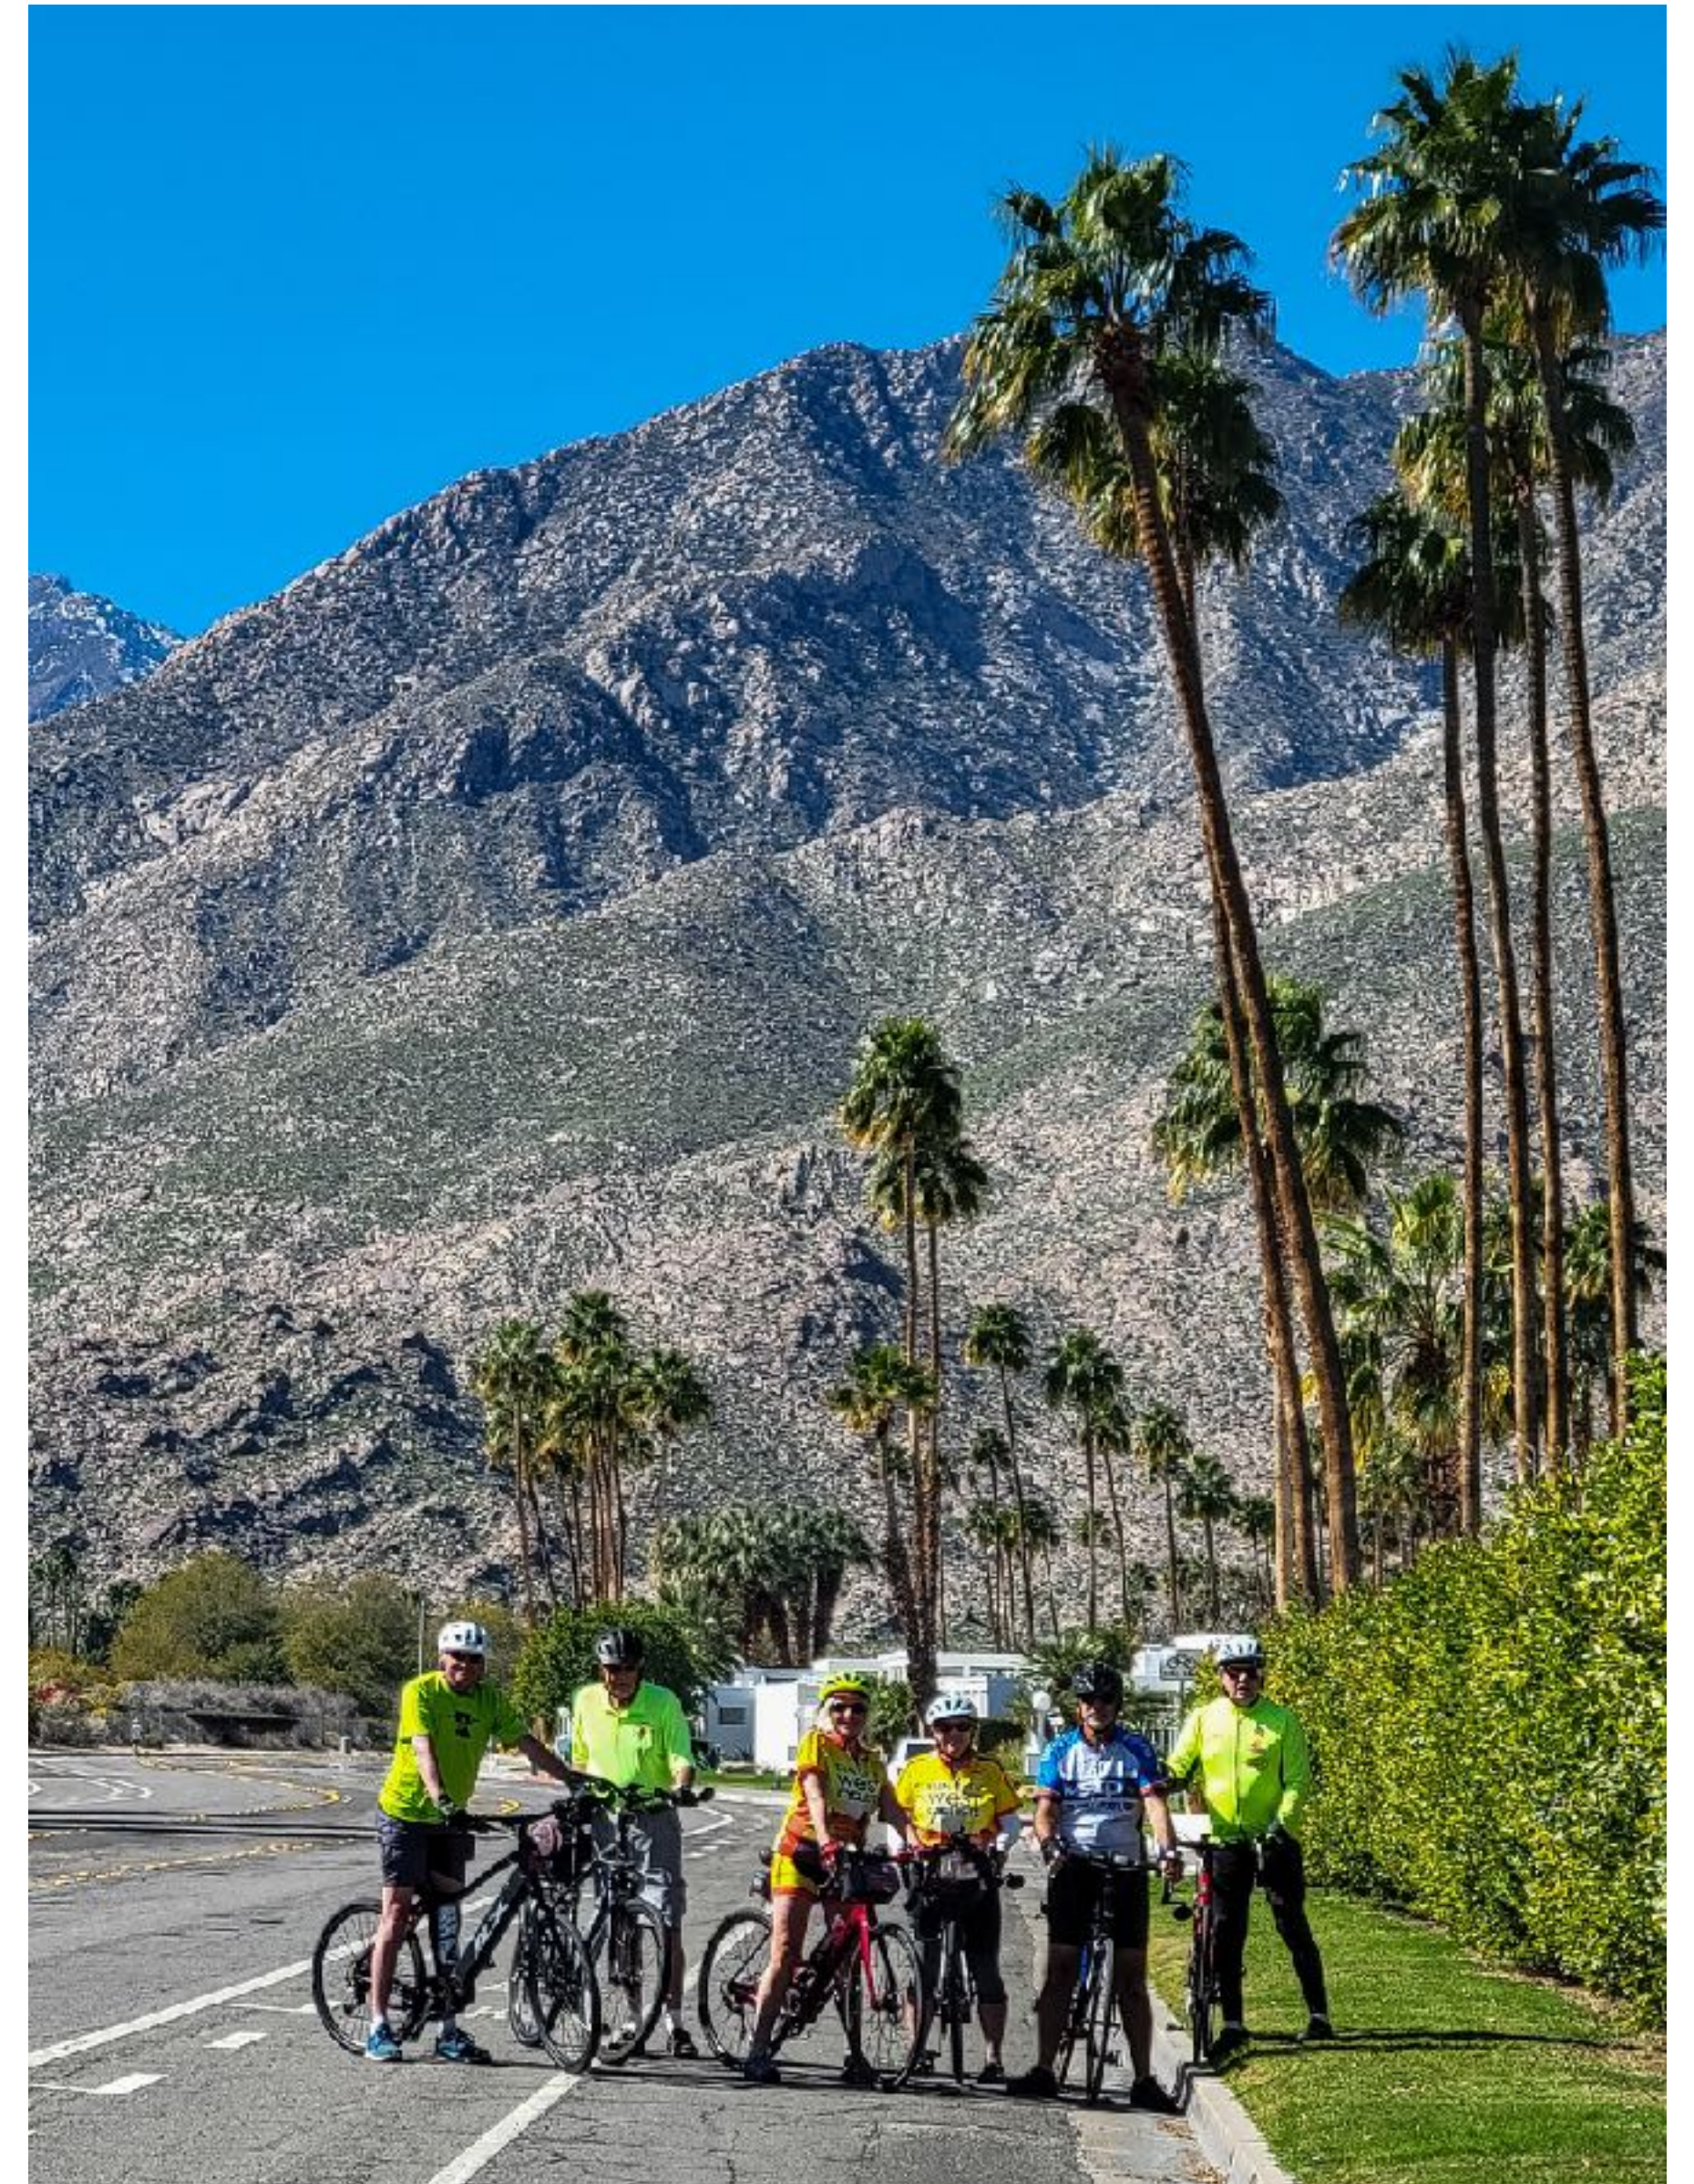

The ride routes were planned out prior to the trip to include stops for refreshments and some of the local artwork. How often do you get to see a car “suspended in time” or get your picture with Marilyn Monroe?

Sometimes you have to stop and admire the impressive scenery of Palm Springs and Palm Desert or

..... to prove you were actually there. A big thank you to all the club members who helped put this trip together and hope to see everyone on our next adventure.
